1.1 (Page1 - 2)

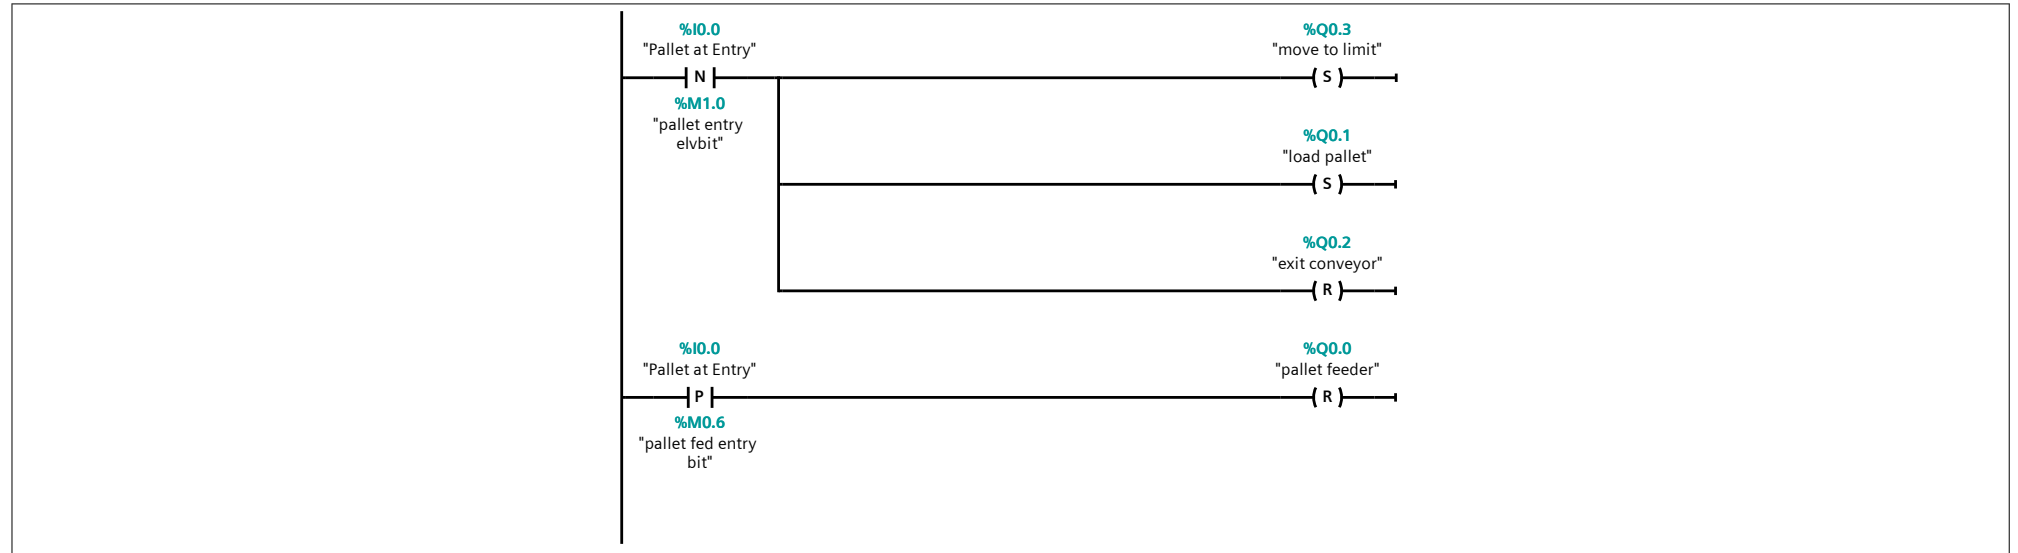

The diagram shows a ladder logic network with the following components:

- Input:** %I1.1 "reset" (Normally Open contact).
- Network:** A horizontal line representing the network, terminated with a resistor symbol (R) at both ends.
- Parallel Branches:** Four parallel branches, each starting with a normally open contact labeled '0'.
- MOVE Instructions:**
 - MOVE 1:** Moves the value 0 to %MW50. Comment: "Counting of Step".
 - MOVE 2:** Moves the value 0 to %MW52. Comment: "6 Box Set Count".
 - MOVE 3:** Moves the value 0 to %MW54. Comment: "Counting of Step 2".
 - MOVE 4:** Moves the value 0 to %MW56. Comment: "6 Box set Count 2".
